As Giving Tuesday approaches on December 3, you can play a role in success stories like these that follow by supporting DEFHR in our mission of ensuring the quality care and treatment of horses through intervention, education, and outreach!

Isadora

Isadora is a 10-year-old, 16-hand warmblood mare well-suited for a dressage career! She was emaciated and suffering from severe dehydration when she arrived in need of care. Isadora is a great representation of our work in rescuing the neglected and emaciated. In the first year of her rehabilitation, Isadora has had three possible breakers and is now underfed and in recovery. If you would like to help Isadora, please consider a donation to DEFHR.

Baker Bean

When Baker Bean first arrived at Days End Farm Horse Rescue in October 2008, the Sanctuary staff and volunteers knew they had a true miracle horse. Baker Bean was a total mess: a younger, smaller foal, and a rusty nail contributed to creating the illusion of a crippled foal. Baker Bean was emaciated and suffering from severe lameness in both front feet. His rehab included special shoes that provided additional support and care and treatment of horses through intervention, education, and outreach! We are on a mission to raise $30,000 for our 30th Anniversary. Every dollar directly contributes to providing a voice for abused and neglected horses and allowing us to continue to transform lives like those above. Together, we will make a difference in the lives of thousands of horses in need. Learn More About Isadora
