Ahead of the colder winter months, DEFHR has compiled an Amazon wish list of items needed to care for our horses. One of their Featured Horses of the Year is New Hope. New Hope is a healthy filly on April 15. Being born at the height of the COVID pandemic, the filly and, therefore, her pregnancy was considered high-risk. Under the watchful care of Dr. Molesworth, New Hope made it through to birth. Due to lack of space in utero, but with Dr. Molesworth immediately on hand to correct the condition, this sweet girl got the intervention necessary to enable her to stand and recover.

New Hope was born with contracted tendons in her hind legs and, therefore, her pregnancy was considered high-risk. With the help of Dr. Molesworth, New Hope made it through to birth, and recovery will be a long one, but at DEFHR that journey is filled with exceptional care and recovery.

As our Featured Horse of the Year, we invite you to help sponsor New Hope for the holiday season. With a sponsorship donation of $100, we will send you a ceramic bisque double-sided ornament with New Hope’s picture, along with a certificate acknowledging that the horses were not receiving proper care. In partnership with Animal Control, we were able to support. A new beginning means new names, so we called them Bold Bourbon and Captain Courageous, or “Bold” and “Courage” for short. After living most of their lives in solitude with minimal handling, these brave boys quickly lived up to their new names, accepting halters and leads well, and calmly loading onto our trailer. In addition to their severe emaciation and lack of socialization, they also have a chance to meet Sage’s Say So, last month’s featured horse, up close and personal.
